DETAILED ACTION

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
2. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, lines 1 and 2, the phrase "the bore of a rifle" has no antecedent basis in the claims. In claim 1, lines 7 and 8, the phrase "the longer section of the optical path" has no antecedent basis in the claims. The Examiner suggests a possible correction for the first problem as merely replacing "the" with "a" so that "a bore of a rifle" is claimed. In order to correct the second problem, the Examiner suggests inserting the phrase "that form a longer section and a shorter section of an optical path and" after "reflecting surfaces" in line 7 of claim 1.
3. Claims 1-6 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Paige; Shen; Frear, Jr.; Aharon; DeBatty et al; Budden et al; and Fukushima et al are cited as being of interest since they disclose boresight alignment devices.
